

Your Health in Your Hands

Global Digital Health Smart Card

One Card. One App.

LifeOnPlus Technologies India Pvt. Ltd. in
Collaboration with Paxycop Technologies
introduces Global Digital Health Smart Card

***Your Digital Visa to Explore the World's
Most Advanced Healthcare
Technologies!***

Why This Card?

**Because Lives
Depend on It.**

Instant Medical Intelligence in Your Pocket—Turning Critical Seconds into Lifelines.

Imagine a world where your health information is just a tap away—even when you can't speak for yourself. **Emergencies don't wait.** In moments when every second counts, a delay in treatment or lack of communication can cost more than money — it can cost a life.

Over 50% of hospital deaths occur due to:

1. Delay in administering medication
2. Lack of accurate communication of medical history

When a patient can't communicate—due to accident, BP/sugar, shock, cardiac event, or language barrier — critical time is lost.

What Makes This Card a **Lifesaver** ?

Emergency Info Report
(Medical FIR)

Medical Records
X-rays, scans, prescriptions

Clinical Data
Treatments, allergies, medications

Second Opinion Access
Secure data sharing

Panic Button
Geo-tagged alerts
